COFFEE

-

Coffee has many flavors, tones and specific features that are closely related to where the coffee is grown.

The art is to mix different coffee beans to exactly the right blend. Noble Tree has created two unique blends together with Fortuyn;

- Fortuyn Mandling

The Manheling is renowned for its full powerful and spicy flavor with a ton of dark chocolate.

- Fortuyn Blend

A blend where the Ethiopian bean performs, this is complemented with beautiful arabica from Brazil, which contains hints of nuts and chocolate but does not lose its beautiful citrus acidity.

TEACULTURES

TEA LEAVES COLLECTION

English Blend

- organic and fair-trade tea -

Taste description: full, powerful and aromatic

A classic English tea is still one of the most drunk and most famous teas. In the Netherlands we know the English Blend as "regular tea", but nothing is regular about this English Blend. This tea has a rich history and was developed in the time of the VOC for and by the English tea drinkers. They wanted a tea with a strong and powerful taste that could be mixed with milk and candy.

This English Blend comes from various Sri Lankan plantations and has a powerful and rich taste with a slightly spicy aftertaste.

Original Black Spice Chai

- organic and fair-trade tea -

Taste description: spicy, powerful and full

The Chai tea is wonderfully spicy and fits perfectly with the cold days in the fall and winter. Inspired by the ancient Indian Masala Chai blends, this black tea from Sri Lanka has a spice blend of cinnamon, ginger, black pepper, cardamom and cloves. This warming tea is not only delicious to drink as regular tea but is also very suitable to make a sugar-free Chai Latte. Delicious!

Ginger Lemongrass

- organic herbal tea -

Taste description: deep, fresh and spicy taste

Ginger and lemongrass are a fantastic combination! Ginger gives a spicy, powerful and herbal taste and the lemongrass complements this deep taste with a soft, delicate and fresh taste. These herbs heat body and soul. A delicious cup of tea which can be drunk all day long because ginger and lemongrass both not contain caffeine.

African Rooibos

- organic herbal tea -

Taste description: full, powerful and aromatic

Rooibos seeds are planted in February and March and harvested about 18 months later. The leaves of the plant are picked, crushed and oxidized in the sun. During this oxidation phase, the Rooibos needles develop the characteristic coppery, red colour. This is due to the iron-rich soil of the South African country. This caffeine-free herbal tea is rich in antioxidants and has a full and aromatic taste.

Pure Earl Grey

- organic and fair-trade tea -

Taste description: aromatic, citrus and fresh

Traditional Earl Grey is one of the most popular teas in the world, and that is not without reasoning. This blend contains black tea from Sri Lanka and is enriched with oils from the cold-pressed peel of the unripe Bergamia Citrus, also known as the bergamot fruit. This blend is originally from Great Britain and thanks its name to its first enthusiast; Earl Charles Grey. This tea is known for its great scent, fresh taste and rich history.

Oriental Green

- organic and fair-trade tea -

Taste description: full, powerful and fresh

Sencha tea is originally from Japan and is steamed. Because the tea is steamed it has its full taste. The taste of the tea is rich, full and has an intense green scent reminiscent of freshly cut grass.

Finest Jasmine,

- organic and fair-trade tea -

Taste description: soft, fresh and flowery

This Chinese green tea with jasmine goes perfectly together and gives the tea a soft, delicate taste and a floral scent. Making jasmine tea is a special process and takes a very long time. After the green tea is picked and processed in the spring, this green tea is stored until the jasmine blossom is ready to be picked. After the jasmine blossom is picked, it is mixed with the green tea. To intensify the taste of jasmine in the tea, the mixture is turned several times. This turning process is also called perfuming and can take more than a month. To make 1 kilo of jasmine tea sometimes more than 7 kilos of jasmine blossom is needed.

Fresh Blend

- organic and fair-trade tea -

Taste description: fresh, soft and fruity

A special fresh and soft blend with delicious spicy taste of vervain, lemongrass and marigold blossom and fresh notes of papaya, lemon- and orange zest. This Fresh Blend is a unique tea consisting of herbs and green tea. A tea that you can drink at any time of the day and is particularly thirst-quenching.
